SANGEAN ATS-909X has been widely regarded by ham radio enthusiasts as one of the best portable shortwave radio out there. Now with the new and improved 2nd gen ATS-909X2, we've made some significant improvements over the functionality while refining the already-excellent features on the original model. Another worthy upgrade is the newly designed smart battery compartment. The radio will now be able to detect faulty batteries and locate its position in the battery compartment when plugged in for charging under standby mode.
